

## Lube-It All® Deep Lubricating Oil

- free formula.
- Forms a thin, dry lubricant coating to reduce friction.
- Displaces 1,200 times its volume in water on surfaces and repels moisture to prevent corrosion.
- Does not attract dust.
- Penetrates through fine gaps to deliver coating to assembled parts and obstructed surfaces.
- Can be used on electrical, metal and plastic surfaces, rotating parts and gears.
- Temperature Range: -300°F to 450°F (-184°C to 232°C).

## All Purpose Water Finding Paste

- Ideal for E-10 Applications!
- Fast, reliable way to detect water in fuel storage tanks.
- Accurately detects phase separation in Ethanol blend applications.
- For all petroleum fuels including ethanol and methanol blends, diesel, kerosene, #2 oil, JP-4, JP-5 and more.
- Works in seconds, even in extreme temperature conditions.
- Paste will turn yellow-green upon contact with water.

## Regular Water Finding Paste

- Quickly and accurately detects water in fuel storage tanks.
- Mustard yellow paste turns red upon contact with water.
- Effective with gasoline, diesel or other hydrocarbon products, sulphuric, nitric and hydrochloric acids, ammonia, soap solutions and other chloride solutions.

## Gas Gauging Paste

- Indicates level of gasoline, naphtha, kerosene, crude and refined oils, jet fuels and a range of other commonly stored liquids.
- Paste will turn blue upon contact with gasoline.

## Free All<sup>®</sup>

- Penetrates rust, scale and corrosion to free parts and assemblies INSTANTLY!
- Loosens red and white lead, tar, grease, carbon and graphite deposits.
- No more torching, drilling, hammering or chiseling.
- Specially formulated, rust eating agent is ideal for plumbing, automotive, marine and general industrial applications.
- Will free up all threaded pipe connections, rusted machine screws, bolts, nuts, clamps for mufflers and tail pipes, pillow blocks, universal joints, locks, etc.
- Contains NO silicones, making it safe in paint and shop environments.
